AMENDEMENT A

In response to the Office letter mailed on July 13, 2005 kindly amend the following application as follows:

SPECIFICATION

Due to large amount of changes, the entire specification is reproduced and a separate marked copy is included herewith.

BACKGROUND OF THE INVENTION

1. Field of the invention

This invention pertains generally to an energy efficient axial fan for exhausting humid, corrosive and dusty air from a variety of buildings, including, by way of example: foundries, manufacturing facilities, poultry operations, green houses, etc...

More particularly, the present invention relates generally to new and useful improvements
